

SPECIAL PUBLIC NOTICE

The purpose of this notice is to inform the public that the Federal Energy Regulatory Commission (FERC) has released the revised scoping document (SD2) and draft study plans for the hydrokinetic energy projects on the Mississippi River. In addition, FERC has scheduled multiple public meetings to discuss this information. Comments on these documents are due to FERC on November 27, 2009.

The release of these document is part of the scoping process noticed in June 2008 and is associated with the development of an Environmental Impact Statement (EIS) for Free Flow Power Corporation's (FFP) proposed development of seven hydrokinetic energy lead project sites within the Mississippi River. FERC's EIS will be used to ensure compliance with the National Environmental Policy Act.

The proposed project entails the installation of multiple arrays of 10-kilowatt, in-stream turbine-generators within the Mississippi River in MO, IL, TN, KY, AR, MS, and LA. Underwater cables would transmit generated power to substations located on adjacent land. At this point, the actual location and configuration of the proposed turbines, cables, and substations has not been finalized. You can visit the applicant's website for additional information about the proposed turbine design, dimensions, and other features at <http://www.free-flow-power.com>.

FERC is the lead federal agency for the project and is conducting the scoping for the projects. A copy of the revised scoping document for these projects (SD2) and the draft study plans can be viewed at the following links to the FERC website:

http://elibrary.FERC.gov/idmws/file_list.asp?accession_num=20090828-5016

http://elibrary.FERC.gov/idmws/file_list.asp?accession_num=20090828-3007

Multiple public meetings have been scheduled to discuss this project, the revised scoping document (SD2), and the draft study plans. The meeting scheduled within the St. Louis District will be held at 1 pm on October 21, 2009 and will be located at the Holiday Inn Select Downtown St. Louis, 811 North 9th Street, St. Louis, MO 63101 (314) 421-4000. The complete public meeting schedule is included as an attachment to this public notice.

The U.S. Army Corps of Engineers has permit authority over these projects under Section 10 of the Rivers and Harbors Act and/or Section 404 of the Clean Water Act. The Corps of Engineers will also submit study requests to FERC for FFP's seven lead project sites. At the appropriate time, FFP will submit applications for Department of the Army permits to the appropriate districts; the Corps will solicit comments on specific projects at that time.

There are seven proposed project sites within the Mississippi River. Two of the seven proposed projects are located within the St. Louis District. The first proposed hydrokinetic project, known as Flora Creek Light, is located between approximate Mississippi River Miles 51.2 to 58.0, near Cape Girardeau, Cape Girardeau County, Missouri and McClure, Alexander County, Illinois. The second proposed hydrokinetic project, known as McKinley Crossing, is located between approximate Mississippi River Miles 182.1 to 184.1, near Venice, Madison County Illinois and St. Louis, St. Louis County, Missouri.

If you have any questions about SD2, the draft study plans, the scoping process, or how FERC will develop the environmental documentation for this project, please contact Stephen Bowler at (202) 502-6861 or by e-mail at stephen.bowler@ferc.gov, or Sarah Florentino at (202) 502-6863 or by e-mail at sarah.florentino@ferc.gov. Additional information about FERC's licensing process and these projects may be obtained from their website at <http://www.ferc.gov> or Free Flow Power's website at <http://www.free-flow-power.com>. For information about the Corps of Engineers Regulatory permit review, please contact Mr. Charles Frerker at (314) 331-8583 or e-mail at charles.f.frerker@usace.army.mil.

Secretary Bose,

Free Flow Power Corporation, on behalf of itself and certain of its subsidiary limited liability companies, submitted our Proposed Study Plan (PSP) on August 28, 2009 in connection with the above-referenced projects.

As described in the PSP Document, in accordance with 18 CFR § 5.11(6)(e), FFP proposes to hold four study meetings to clarify the PSP and resolve any outstanding issues with respect to FFP’s proposed licensing studies.

These study meetings are being held across the geographic range of FFP’s proposed Project Sites to enable stakeholders to easily access at least one study meeting. Each Study Meeting will cover all of FFP’s proposed studies and the topics of interest in each one. In addition, each Study Meeting will have a “featured topic” that will be examined in detail.

The schedule, venue and “featured topic” of each Study Meeting is provided below:

- **September 28 and 29, 2009**
Beginning 9 am on September 28
*Featured Topic: Navigation, Sedimentation, Geomorphology**

Vicksburg Convention Center
1600 Mulberry St
Vicksburg, MS 39180
(601) 630-2929
www.vccmeet.com

- **October 6 and 7, 2009**
Beginning 9 am on October 6
*Featured Topic: Aesthetics, Cultural, Recreational Resources**

Holiday Inn Select Downtown
160 Union Avenue
Memphis, TN 38103
(901) 525-5491
www.hisdowntownmemphis.com

- **October 13 and 14, 2009**
Beginning 9 am on October 13
*Featured Topic: Fisheries, Aquatic biota and Habitat**

International House
211 Camp Street
New Orleans, LA 70130
(504) 553-9550
www.ihhotel.com

- **October 20 and 21, 2009**
Beginning 9 am on October 20
*Featured Topic: Wetlands and Terrestrial Resources***

Holiday Inn Select Downtown St. Louis
811 North 9th Street
St. Louis, MO 63101
(314) 421-4000
www.histlouis.com

FFP will also hold a Joint Meeting for its TLP sites on the second afternoon of each block of meeting times. The purpose of the Joint Meetings will be to explain FFP's project proposals and potential environmental impact, and to discuss studies to be

* Please note that all proposed studies will be covered at every meeting

conducted by FFP as part of the consultation process. The schedule for the Joint Meetings is provided below:

- **September 29, 2009 afternoon beginning 1 pm**
Vicksburg Convention Center
1600 Mulberry St
Vicksburg, MS 39180
(601) 630-2929

We encourage resource agencies, Indian tribes, and members of the public to attend our Study Meetings and Joint Meetings and look forward to a productive dialog about our proposed projects.

Please do not hesitate to contact me on 978-226-1531 or at rswaminathan@free-flow-power.com if I can provide additional information.

Sincerely,

Ramya Swaminathan

CERTIFICATE OF SERVICE

I hereby certify that I have this day served the foregoing document upon each person designated on the official service list in the proceeding in accordance of the requirements of Rule 2010 of the Commission's Rules of Practice and Procedure.

September 4, 2009

A handwritten signature in black ink, appearing to read "Ramya Swaminathan", written over a vertical line.
