Public Notice No.
P-2790
Public Notice Date
April 12, 2011
Expiration Date
May 3, 2011

Postmaster Please Post Conspicuously Until:

File Number: MVS-2010-549

Interested parties are hereby notified that an application has been received for a Department of the Army permit for certain work in waters of the United States, as described below and shown on the attached maps.

COMMENTS AND ADDITIONAL INFORMATION: Comments on the described work should reference the U.S. Army Corps of Engineers File Number shown above and must reach this office no later than the above expiration date of the Public Notice to become part of the record and be considered in the decision. Comments should be mailed to the following address:

U.S. Army Corps of Engineers
Regulatory Branch
1222 Spruce Street
St. Louis, Missouri 63103-2833
ATTN: Jaynie Doerr

APPLICANT: Jeromy Fritz; Jefferson County Youth Association; P.O. Box 268, Arnold, Missouri 63010

LOCATION: The project area is located off of Bradley Beach Road in the City of Arnold, Missouri. More specifically, in Section 16, Township 43 North, Range 6 East, Jefferson County, Missouri. See attached map for more detail.

PROJECT DESCRIPTION: The applicant seeks authorization to impact approximately 10 acres of forested wetland located in the floodplain of the Meramec River to develop practice football fields for the Jefferson County Youth Association. The site currently exists as a mature stand of forest consisting mainly of pin oaks (*Quercus palustris*). Other tree species such as American sycamore (*Plantanus occidentalis*), River birch (*Betula nigra*), Silver maple (*Acer saccharinum*) and American elm (*Ulmus americana*) are found throughout the site as well.

The organization outgrew their current facilities offered by the school district and purchased the 15.56 acre property to develop practice fields. The proposed project entails removing the vegetation and leveling approximately 10 acres of the site to construct the practice fields and associated parking. The remaining acreage located at the southern end of the property will be left undisturbed.

The applicant does not have any alternatives at this time. They purchased this property because of the price and location. Since the site is located adjacent to a developed recreation area, the applicant did not anticipate any public concern with developing an additional recreation feature on the site. The association has not been able to locate an alternative site or sell the existing parcel.

The applicant proposes to mitigate for the wetland impacts by preserving the remaining 5 acres of forested wetland at the southern end of the property. Additionally, the land adjacent to the proposed project site is available for forested wetland preservation.

LOCATION MAPS AND DRAWINGS: See Sheets 1 and 2 attached.

ADDITIONAL INFORMATION: Additional information may be obtained by contacting Jaynie Doerr, Project Manager, U.S. Army Corps of Engineers, at (314) 331-8581. Your inquiries may also be sent by electronic facsimile to (314) 331-8741 or by e-mail to Jaynie.g.doerr@usace.army.mil.

AUTHORITY: This permit will be processed under Section 404 of the Clean Water Act (33 U.S.C. 1344).

WATER QUALITY CERTIFICATION: The project plans have been submitted to the Missouri Department of Natural Resources, Water Protection Program for state certification of the proposed work in accordance with Section 401 of the Clean Water Act. The certification is requested as of the date of this Public Notice, and if issued, will express the Agency's opinion that the proposed activities will not violate applicable water quality standards. Written comments concerning possible impacts to waters of Missouri should be addressed to: Water Protection Program, Post Office Box 176, Jefferson City, Missouri 65102-0176, with a copy provided to the Corps of Engineers.

SECTION 404 (b)(1) EVALUATION: The impact of the activity on the public interest will be evaluated in accordance with the Environmental Protection Agency guidelines pursuant to Section 404 (b)(1) of the Clean Water Act.

PUBLIC HEARING: Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider the applicant's proposal. Any request for a public hearing shall state, with particularity, the reason for the hearing, and must be based on issues that would warrant additional public review.

ENDANGERED SPECIES: A preliminary determination, in compliance with the Endangered Species Act, as amended, has been made that the work that is proposed would not affect species designated as threatened or endangered, or adversely affect critical habitat. According to the Missouri Department of Conservation Heritage database, the proposed project may be within the range of endangered Indiana Bat (*Myotis sodalis*). No formal consultation request has been made to the United States Department of Interior, Fish and Wildlife Service at this time. However, in order to complete our evaluation, comments are solicited from the Fish and Wildlife Service and other interested agencies and individuals through this Public Notice.

CULTURAL RESOURCES: The St. Louis District will evaluate information provided by the State Historic Preservation Officer and the public in response to this public notice and we may require a reconnaissance survey of the project area.

EVALUATION: The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the described activity on the public interest. That decision will

reflect the national concern for both protection and utilization of important resources. The benefit that may reasonably be expected to accrue from the described activity must be balanced against its reasonably foreseeable detriments. All factors, which may be relevant to the activity described, will be considered including the cumulative effects. Among factors considered are: conservation; economics; aesthetics; general environmental concerns; wetlands; historic properties; fish and wildlife values; flood hazards; flood plain values; land use; navigation; shoreline erosion and accretion; recreation; water supply and conservation; water quality; energy needs; safety; food and fiber production; mineral needs; consideration of property ownership; and in general the needs and welfare of the people.

SOLICITATION OF COMMENTS: The U.S. Army Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of the proposed activity. Any comments received will be considered by the U.S. Army Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

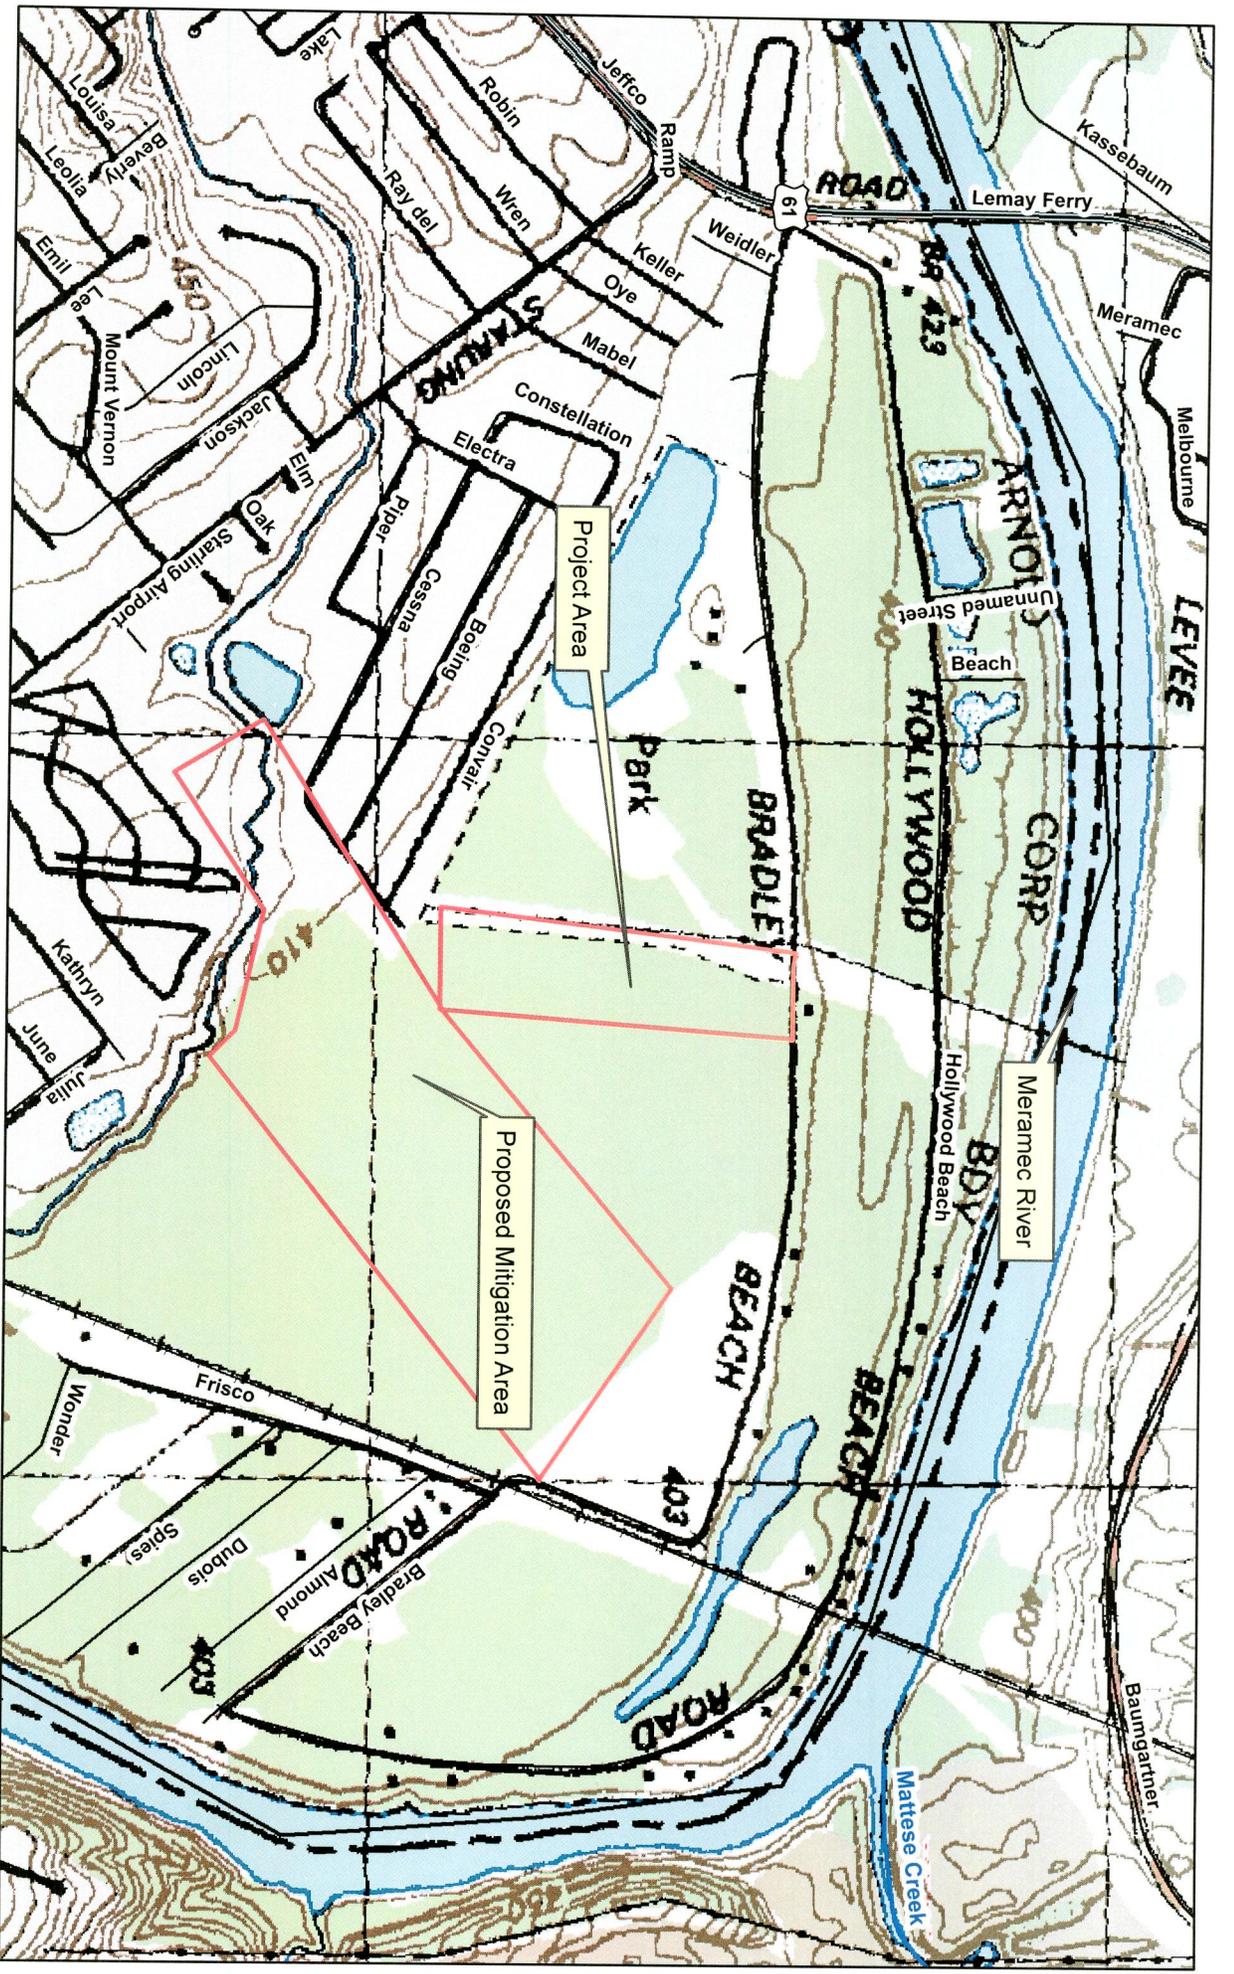

DANNY D. MCCLENDON
Chief, Regulatory Branch
