

Life Jacket Loaner Program

Over the last few years, the Monroe City Lions Club has donated lifejackets purchased through a grant from the Quincy Area Safety Council for the Corps of Engineers at Mark Twain Lake. The lifejackets are placed on a loaner board at John Spalding Beach for anyone needing to borrow one. When recreating in or on the water, play it safe, take a boating safety course, learn to swim well, swim and boat with a buddy, know how to identify a drowning victim, and the things you can do to rescue them. The most important thing to remember is to wear a life jacket.
