

AUTHORIZATION:

Section 101(a)(17) of Water Resources Development Act of 1990 (Public Law 101-640)

Location and Description:

The project is located along the River des Peres within the St. Louis Metropolitan area. This flood damage reduction project will reduce damages affecting 550 structures within both industrial and residential areas. River des Peres includes two segments, University City and Deer Creek. The University City portion consists of channel enlargement and stabilization along 2.5 miles of the University City segment of upper River des Peres and a 1.85 mile recreation trail within the improved channel right-of-way. The Deer Creek portion consists of 2.5 miles of channel widening and stabilization improvements along with a recreational trail through Brentwood, Maplewood, Rock Hill, and Webster Groves.
