

Regional Cultural Resources Management

MCX-CMAC has the capability and personnel to provide technical assistance, archaeological services, and guidance to facilitate and ensure compliance with federal regulatory mandates pertaining to the inventory, assessment, protection, and preservation of archaeological resources as defined by laws (e.g. ARPA, NHPA) and regulations. MCX-CMAC staff are broadly qualified and experienced in performing a wide range of field, laboratory, and office archaeological functions. Major customers in this area have included the Corps' Kansas City, Omaha, and New Orleans Districts.

Examples of Services Offered

- Archaeological Resources Protection Act (ARPA; 16 U.S.C. 470bb and 32 CFR Part 229), Section 106 and Section 110 of the National Historic Preservation Act (NHPA) guidance and compliance
- All aspects of archaeological investigation, including background research, field survey, archaeological testing, and archaeological excavation
- Efficient and proficient management of archaeological field projects, ranging from small to large-scale

*MCX-CMAC is located at the St. Louis District of the US Army Corps of Engineers.
