Formerly Utilized Sites Remedial Action Program Project Office

SUBJECT: Response to Missouri Department of Natural Resources DEQ/HWP/FSS
Section Request for Information Dated December 6, 1999

Mr. Scott Honig
Missouri Dept. of Natural Resources
P.O. Box 176
Jefferson City, Missouri 65102-0176

Dear Mr. Honig:

The enclosed answers are provided in response to your request for information dated December 6, 1999. Please contact Mr. Lou Dell'Orco at (314) 524-6857 if you have any further concerns regarding this matter.

Sincerely,

A handwritten signature in cursive script, reading "Sharon R. Cotner", is positioned above the typed name.

Sharon R. Cotner
FUSRAP Program Manager

Enclosure

Can the USACE provide reasons why it is inappropriate for MDNR to attend the weekly Engineering During Construction (EDC) Meeting at SLDS?	MDNR has full access to the information from the Engineering Coordination Meeting through their attendance at the weekly Construction Meeting. The Engineering Coordination Meeting is an internal working meeting at the request of IT and Mallinckrodt.
When can MDNR expect to get the regulators review copy of the FS/PP? MDNR expects to still receive a 30-day review period from the date of receipt of the document.	MDNR can expect to receive the regulator review of the FS/PP in January. The North County Site FS/PP is currently undergoing legal review by the USACE HTRW-CX Office of Counsel, a process mandated by HQUSACE. Upon receipt and resolution of comments by this office, the St. Louis District will request HQUSACE approval to release the documents to the regulators for review. Once HQUSACE provides the approval to release the document, MDNR will be afforded a 30-day review of the North County Site FS/PP from the time of receipt.
MDNR is requesting another copy of the FS/PP and ROD schedule for the North County Sites. Please provide a copy of the FS/PP ROD schedule for the North County Sites along with the Regulator Review copy of the document.	The schedule for the North County Site FS/PP ROD is the same that was issued to MDNR, USEPA and USACE at the August 13, 1998 meeting. A North County ROD schedule will be provided as soon as practicable after it is updated.
USACE is collecting a large amount of data every day from all of the sites. Lack of accessibility to the data for the USACE or regulators is an issue that must be addressed. How is this data being managed by USACE contractors?	The collecting USACE contractors are maintaining field data in their respective databases. Additionally, data required for environmental documentation and compliance is integrated into the project data repository.
MDNR expects the USACE to fully brief the St. Louis Remediation Oversight Committee on the Feasibility Study and Proposed Plan in a timely manner before the public hearing or comment period. Members of the Oversight Committee represent many groups that will be affected by the final remedy outlined in the FS/PP.	Concur. The basics of the FS/PP were briefed to the Oversight Committee at the 10 December 1999 meeting. Additional information will be provided to them in any forum they choose.

Cataloging Form

{Technical/Project Managers fill in C through G, K through Q. RM completes other fields}

A. Document ID Number: Assigned by database 00-277 B. Further Information Required?: ☐

C. Operable Unit (Choose One):

USACE ☐
St. Louis Sites ☒
Downtown ☐
North County ☐
Madison Sites ☐
Inaccessible Areas ☐
PRP ☐
Oversight Committee ☐

D. Site (Optional):

SLDS VPs ☐
Mallinckrodt ☐
SLAPS ☐
SLAPS VPs ☐
CWC ☐
