Re: FUSRAP Proposed Plan for the Iowa Army Ammunition Plant, Middletown,
Iowa Revision B dated February 18, 2011

Dear Ms. Cotner:

The Iowa Department of Natural Resources, Contaminated Sites Section, (IDNR) has received and reviewed the above referenced proposed plan submitted by U.S. Army Corps of Engineers. Because U.S. Army Corps of Engineers Formerly Utilized Sites Remedial Action Program has limited the scope of the proposed plan to only radiological issues IDNR is required to defer all ARAR reviews (except disposal) to the Radiological Health Bureau of the Iowa Department of Public Health.

If you have any questions or need further information please feel free to call or e-mail at (515) 281-4171 or dan.cook@dnr.iowa.gov.

Sincerely,

Daniel Cook
Environmental Specialist Senior
Contaminated Sites
