Formerly Utilized Sites Remedial Action Program

Subject: Final Iowa Army Ammunition Plant Site Reconnaissance Survey Report for Buildings L-37-1, L -37-2, L -37-3 dated March 2003

Mr. Randy Rohrman
U.S. Environmental Protection Agency
Region VII
901 North 5th Street
Kansas City, Kansas 66101

Dear Mr. Rohrman:

Enclosed are two copies of the Final Iowa Army Ammunition Plant Site Reconnaissance Survey Report for Buildings L-37-1, L-37-2, L-37-3 dated March 2003 for your records. No formal comments were received. Copies of this document are also being provided directly to both Mr. Don Flater of the Iowa Department of Public Health and to Mr. Rodger Allison of the Iowa Army Ammunition Plant.

In accordance with the Formerly Utilized Sites Remedial Action Program (FUSRAP) letter dated January 16, 2003, "SUBJECT: FUSRAP Use of Data Generated During the Site Reconnaissance Survey of Yard L Warehouses L-37-1, L-37-2, and L-37-3 at the Iowa Army Ammunition Plant (IAAAP)," the subject warehouses are classified as "non-impacted" and released by FUSRAP for unrestricted use without radiological restrictions. This determination was based on the findings of the survey, a review of the historical record, previous survey results and former employee interviews. This determination applies to the subject warehouses and real property directly beneath them; it does not apply to the real property that is within the double security fencing surrounding the three subject warehouses. This real property will be addressed by FUSRAP in the future.

If you have any questions regarding this matter, please contact Mr. Brian Harcek of my staff at (314) 260-3933.

Sincerely,

A handwritten signature in cursive script that reads "Sharon Cotner".

Sharon Cotner
FUSRAP Program Manager
