## VISITOR REGULATIONS

### To Our Visitors

Welcome to Wappapello Lake, and thank you for visiting us. We are one of five lakes and many miles of riverway offering exceptional opportunities for water recreational activities managed by the St. Louis District. Surrounding these waters are thousands of acres of public land, managed for your enjoyment of natural resources.

All members of the U.S. Army Corps of Engineers team appreciate the opportunity to be of service to you. To assist you during your visit, we have developed a variety of publications. They are available from the management office, campground entrance booths, a park ranger, or the visitor center.

Please become familiar with the rules that apply to your recreational activities. They have been developed to make your visit safe and enjoyable and to preserve natural resources. If you observe anyone performing unsafe acts or otherwise violating regulations, please contact a park ranger.

The St. Louis District hosts millions of visitors annually. Please be extremely careful in and around the water, on trails, and near bluffs or steep areas. One careless moment can result in a lifetime of regret. Remember to wear your life jacket when you are on or near the water.

We hope your visit will be a pleasant experience. If you have questions or suggestions, please contact us at the phone number or address on the back of this publication. We are here to serve you. Come again soon, and tell your friends about this beautiful natural resource.
