

Information Bulletin

DEPARTMENT OF THE ARMY ST. LOUIS DISTRICT, CORPS OF ENGINEERS

VOL 15 NO 4

OFFICIAL

15 MAY 1978

DISTRICT DOINGS

Short breaks in the weather and the anticipation of spring by many of the outdoor enthusiasts have meant stepping up the talks, tours, briefings and programs for our field offices at the lakes. Not to be outdone, a lot of District office staffers here in St. Louis have been very busy with special requests for some very special programs.

Highlight of the month was the observance of National Wildlife Week which sparked some District-wide observance events at the lakes. At Rend Lake the ranger and management staff invited area schools and the response was sensational. The staff hosted 486 youngsters from eight of the neighboring schools. Up at Carlyle a whopping 542 students turned out for the week.

Here in St. Louis, Leon Leach spoke to 200 McCluer North High students about the Corps career in recreation management. Jay Gore journeyed out to sunny Phoenix to speak to 20 members of the Wildlife Management Institute, part of the North American Wildlife and Natural Resources Conference. Jay also teamed with Dave Berti to talk with the students at the Environmental Center Seminar at SIU Carbondale.

George Clapp told the St. Louis Advisory Council meeting about the GREAT III program, and Lou Chiodini talked about the "Port of Metro St. Louis."

Colonel McKinney told the World Dredging Conference members about the GREAT III program at the annual meeting here in St. Louis. John Kilker talked about the Regulatory Program. John also teamed with Don Huston to host a special tour group from the Transportation Council of the East-West Gateway Coordinating Council on a river trip.

Some radio guest shots for our people. . . Jerry Phelan became part of a week-long interview show on KMOX radio with the topic of Dam Safety. Ken Long talked about river conditions via KMOX and WIL radio. Red Buchold told KTSP listeners about Emergency Operations procedures.

Bruce Moore talked about the history of instrumentation in the St. Louis District to the Symposium on Instrumentation at the University of Missouri at Rolla.

Speaking of Rolla, a tip of the hard hat to Jack Niemi who was initiated as an honorary member of Chi Epsilon, National Civil Engineering Honor Fraternity. Jack spoke to the members on the evening of his receiving the honor.

A special briefing and tour was conducted for Co-op students at the District office. Heading the list of staff cadre hosting the group was LTC Wilkes ably assisted by George Anderson, Bill Richardson, Katherine Greer, John Marzec, Leon Leach, Ted Postol, Jim Edinger and Gerald Willick.

LTC Wilkes also spoke to the members of the Mark Twain Lake and Cannon Dam Area Development Association at their annual meeting in Hannibal.

Mel Doernhoefer talked to the IBM Luncheon Club and to Explorer Scouts from Post 769 at Willowbrook School and to parents and Cubs from Pack 584 in Affton.

Emmett Hahn and Ron Messerli talked to over 400 Carrollton, Illinois High School students about sandbagging methods and techniques.

Around the field. . . Clarence Cannon has attracted some interested geologic students. Captain Bertoncini hosted 25 seniors from the University of Missouri in Columbia. These young engineers visited the on-site work. Robert Hood, George Grate and Resident Engineer Otto Steffens provided a briefing and tour for 26 geologic engineers from Purdue. Bob and Mike Easterly also took members of the St. Louis Section of the Association of Engineering Geologists on a tour of the work. Bob Hood also talked and toured with 13 Clayton High students. Greg Miller visited and gave three talks at the Monroe City High School, while Ed Berghoff and Walter Fredley spoke to 80 Ralls County R-II schools.

At Lake Shelbyville. . . Dennis Gathmann kept mighty busy with two radio shows speaking about the Youth Conservation Corps program over WLBH at Mattoon and describing the Recreation Facilities at the lake for the WICS-TV audience from Springfield, Illinois. Dennis, Larry Gutzler, and Gerald Parker teamed up to talk with the Mattoon Exchange Club group. Jill Campbell spoke to 37 Agricultural Engineering students from the University of Illinois and to 38 Cowden, Illinois 4th and 5th graders. Gigi Gray talked to a Windsor, Illinois Hunting group, and Tom Bloor discussed careers in Recreation Management with Sullivan, Illinois Junior High 8th graders.

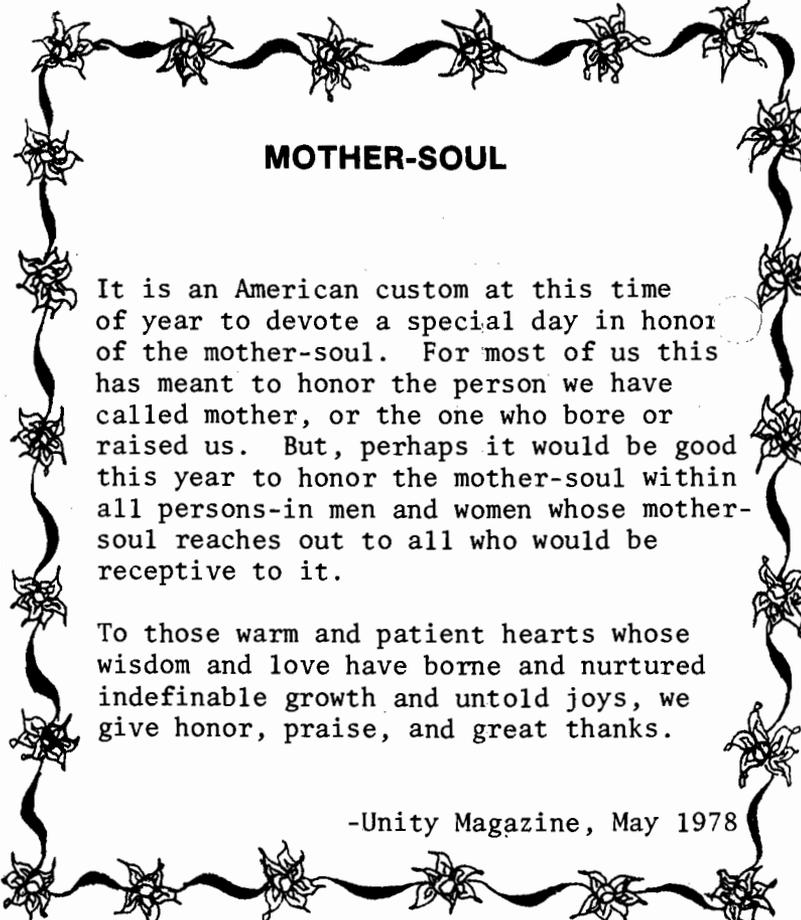

At Carlyle. . . genial Al LeGrand lead a group of staffers including Cheryl Leach and Brad Keshlear to tell 22 Illinois Municipal Association of Mayors visitors about the big lake. Cheryl gave 35 Hoffman, Illinois Lions an idea of "A Day at Carlyle Lake."

Down at Rend Lake. . . Les Allert spoke to 45 Mount Vernon, Illinois Cub Scouts and teamed with Dave Berti to tell 50 McCleansboro, Illinois 4th graders about the lake. Les also conducted an auto tour for 30 Mennonite School youngsters, and along with Jeff Buck spoke to the DuQuoin Garden Club. Phil Jenkins discussed the lake projects with the Sesser, Illinois Chamber of Commerce.

At the Locks. . . lots of tours at #27. . . with students from the Garret School, Metropolitan High School and the Midland School making the visit. Groups totaled almost 125 youngsters. John McClain was host to two visits from the Academy of Math and Science, a group of 40 interested magnet school pupils. Floyd Wade was the tour guide for 30 Agriculture Extension Advisors from the University of Illinois.

At Lock and Dam #26 Colonel McKinney led a delegation for Rear Admiral Wallace of the U. S. Coast Guard. The Admiral is a special advisor to DOT Secretary Brock Adams. Bill Sutton and Tom Durham showed a delegation of river regulation people from LMVD around the locks, and Ken Koller and Jim Fogilphol took good care of Globe-Democrat reporter Mike Feasel. Mike's series was a good piece of reporting. Greg Hempen explained the testing work to a group from the Engineering and Geology Departments at the University of Missouri-Columbia.

So, it's been a busy month and even more to come.

MOTHER-SOUL

It is an American custom at this time of year to devote a special day in honor of the mother-soul. For most of us this has meant to honor the person we have called mother, or the one who bore or raised us. But, perhaps it would be good this year to honor the mother-soul within all persons-in men and women whose mother-soul reaches out to all who would be receptive to it.

To those warm and patient hearts whose wisdom and love have borne and nurtured indefinable growth and untold joys, we give honor, praise, and great thanks.

-Unity Magazine, May 1978

*Temper is what gets most of us
into trouble. Pride is what
keeps us there.*

HEALTH BENEFITS

Blue Cross/Blue Shield has supplied the Personnel Office with copies of four brochures explaining a number of reasons why health care costs have increased and what can and should be done to have a positive impact on costs. Copies are available in PB-S, Rm 958, for any member wishing them.

The Civil Service Commission audits each health benefits carrier to ensure its compliance with the contract. In order to do as complete an audit as possible, the Commission has been sending questionnaires to subscribers just prior to their audit of a particular plan. Should you receive such a questionnaire, it should be noted that it is strictly voluntary, replies will be anonymous since they contain no subscriber information or identification and all information you provide will be kept confidential. Please keep in mind that the survey is NOT intended to follow-up on individual problems but is designed to determine the overall effectiveness of the insurance carrier being audited.

Your cooperation will greatly help in keeping health benefit premiums as low as possible.

Aetna has undergone some contract changes which became effective 1 Jan 78 and are pointed out on page 23 of the 1978 brochure, however, we would like to spotlight one of these changes.

The contractual definition of a qualified hospital under the Plan has been broadened to include coverage for certain alcoholism and drug abuse treatment facilities previously not covered. In expanding this benefit, the carrier has identified centers established primarily for the treatment of these disorders who now qualify for benefit reimbursement under the new definition.

The only center available in our area at this time is: Edgewood Hospital, 4201 McKibbon Rd., St. Louis, MO. If you would like specific or additional information regarding this benefit please call Aetna direct at 576-2386.

OFFICE ASSISTANT ANNOUNCEMENT

The Office Assistant Announcement covering clerical positions will be open to the public for filing with the Civil Service Commission 1 June through 9 June 1978. Anyone interested in filing should contact the St. Louis Area Office between those dates to obtain an application. Their telephone number is 425-4285 and they are located at 1520 Market Street, Room 1712.

Larry Jenneman is teaching an eight-week adult education course on Home Landscape Planning at Mehlville High School on Wednesday evenings. The participants are developing landscape plans for their homes.

"THE US ARMY CORPS OF ENGINEERS, IT'S MORE THAN A JOB"

The US Army Corps of Engineers has a long and dedicated record of service to our country. This record has been built by both military and civilian personnel serving during times of war and peace. Pride and dedication by it's employees are what has made the Corps stand at the top in achievement, year after year. Whatever your job, you are an intricate part of an organization that realizes that you, the employee, are what the Corps is all about-
THE US ARMY CORPS OF ENGINEERS BUILDING
TO HELP KEEP AMERICA STRONG.

-Cliff Elmore, DS

SUGGESTIONS

Dorothy Thomas, AS-G
Marvin Morris, OD-RJ
Ronald E. Rauh, CD-IO
David O'Connell, ED-SS
Charles Athie, ED-DB

* * * * *

A Division-wide suggestion campaign will be conducted during the period 15 May through 30 June 1978.

The theme will be "The Coin Campaign"-- the slogan, "A Penny for Your Thoughts." Watch for details.

I
A
C

SUGGESTION OF THE MONTH:

In addition to our practice of spotlighting the Suggestion of the Month, we feel it is only fitting and proper to recognize the Suggester, with his/her permission, of course. So here goes--

This month's Suggestion of the Month was submitted by Dorothy Thomas, AS-G, who recommended a survey be made to determine the kinds of calculators and battery charger packs that are used in the District, so that a bulk order can be placed in order to keep these items stocked in the Supply Room. This will eliminate the necessity of processing numerous individual requisitions, and will result in \$1,050 tangible savings annually. Dorothy has been awarded \$105 for her suggestion.

Congratulations, Dorothy!

PRESIDENT'S RECOGNITION PROGRAM:

President Carter is encouraging Federal employees to participate in improved Government service. Each employee whose idea or achievement beyond job requirements saves \$5,000 or more, or makes a major contribution to energy conservation, zero-based budgeting, paperwork reduction, Government reorganization, or regulation reform, will receive the President's personal letter of thanks, to be presented at agency ceremonies in addition to any cash or honor award granted by the agency.

BRAINSTORM - Think of improvements
WRITE it down on the Suggestion form
SEND it to IAC Secretary, Room 955

NASS SEMINAR:

As your IAC Secretary, I recently attended a seminar on "Suggestion System Concepts & Operation" sponsored by the National Association of Suggestion Systems (NASS).

Of the fourteen in attendance, I was the only government employee. There were representatives from companies who manufacture cigarettes, mining equipment, railroad wheels, hydraulic pumps, as well as service organizations dealing in insurance and utilities. There was also a representative from a small company in Central America who distributes diversified products.

The size of the companies extended from 100 to 12,000 employees. A few are just beginning their programs, while most of us have ongoing systems. While our organizational structure may differ in some ways from private industry, I found we have the same areas of concern, i.e., cost reduction, waste reduction, participation, evaluations, morale--just to name a few. After exchanging ideas, I came away from the seminar convinced that our Army Suggestion Program is the very best. And who makes it the best? Why, YOU DO -

YOU, the Suggester
and
YOU, the Evaluator

As stated in the February Information Bulletin, we may have our weaknesses, and there's always room for improvement, but you can be proud of your Suggestion Program and the results you've attained. You stand second to none!

I
A
C

Council Corner

SPECIAL ANNOUNCEMENT:

Effective immediately, when a request for clarification or more information is made pertaining to your Suggestion, please respond to the IAC Secretary as soon as you can. If no reply is received within 30 days, your suggestion will be withdrawn.

Mary A. Harris (SSG Harris), Personnel Office, is receiving the Globe Democrat Award for outstanding performance as a reservist. This award will be presented to her at Jefferson Memorial (Forest Park), 20 May 78.

Stan Ebersohl and Mike Brazier journeyed to Nashville, Tennessee to present papers at the COE Sanitary Engineering Seminar. Stan spoke on Land Treatment Feasibility studies while Mike spoke on Package Wastewater Treatment Plants. People attending the seminar represented District, Division and OCE offices.

Mel Stegall gave a case history presentation at Waterways Experiment Station's Drilling and Blasting School, 1 Mar 78.

The Civilian Welfare Council wishes to announce the Annual Corps Awards and Birthday Celebration which is scheduled for Friday, June 16th, at Carondelet Park.

The main theme will again be a mini carnival which will provide entertainment for adults and children. FREE BEER and SODA will be provided (while it lasts) for all employees who purchase a meal ticket, compliments of the monthly C.W. Club.

The meal will include roast beef, ham and cheese, mostacholli, slaw, and salads.

The council is developing a program which should create a very festive afterno and we hope all employees can attend. (more details later)

Crafts Bazaar

The Council is planning their annual Crafts and Arts Bazaar for November 16th and 17th. More details will be forthcoming, but for the craft designers, they can definitely count on this event and make their plans accordingly.

C. W. Club

The C. W. Club wishes to announce their April winners:

- 1 - John Helfrich - ED-DG
- 2 - Sharon Cowen - ED-DM

LENGTH OF SERVICE AWARD

The following District employees are eligible this year to receive Corps of Engineers' Length-of-Service Emblems. In computing length of service, all Federal civilian and military service is included through 30 June 1978, and the employee must have been a civilian employee of the Department of the Army at least one year prior to the award. So that all deserving persons will receive the award, the following list has been prepared. If you believe you are eligible and your name is not listed, or if you are on the list and have already received an emblem, please contact Marge Hurst, Ext. 3911. Presentation of these awards will be made at Carondelet Park during the Corps' Annual Birthday Celebration on 16 June. Further details will be issued later.

THIRTY-YEAR AWARD

HUMMEL, JULIUS A.	RO-C	LINDBECK, JAY R.	LOCK #27

EEO CORNERSTONE

PRESIDENT SIGNS AGE BILL

President Carter signs the bill (H.R. 5383, P.L. 95-256) that raises the permissible mandatory retirement age from 65 to 70 for most private sector employees and eliminates any mandatory retirement age for federal workers. The age 70 limitation for private sector and state and local government workers becomes effective January 1, 1979 and the removal of the current age-70 cap for most federal employees is effective September 30, 1978.

Praising the President's action, Representative Claude Pepper (D-Fla), the bill's chief sponsor, said he will introduce a new bill to abolish any age ceiling in nonfederal employment. The legislation also will protect against age discrimination in housing, health care, education, and "other areas where senior citizens have been victims of unfair treatment," he said.

Pepper added that the Labor Department has estimated that about 200,000 people will be affected in the first year by the increase to age 70 and the uncapping in the federal sector. Regarding a major objection to the new law, Pepper said employers constantly make distinctions based on merit, and the new law will not make it any more difficult for firms to terminate older workers whose performance has diminished.

CSC CHANGES APPEAL PROCEDURE FOR HANDICAPPED INDIVIDUALS

Appeals system for hearing complaints of discrimination based on physical or mental handicap has been established by US Civil Service Commission. Effective April 10, new appeals system for handicapped individuals extends the coverage of existing procedures for discrimination complaints based on race, color, religion, sex, national origin and age to include complaints based on handicap.

Established as a result of a growing concern on the part of the public, courts, and Congress over a lack of effective remedies for Federal employees and job applicants who have suffered discrimination because of a physical or mental handicap, this system is the first uniform administrative complaints process ever established for handicapped applicants and employees of the Federal government. No single review system previously existed for discrimination based on handicap, CSC said.

Single review system was initially urged by the Interagency Committee on Handicapped Employees and the White House Conference on Handicapped Individuals.

An aggrieved person who believes he/she has been discriminated against because of a handicap and who wishes to resolve his/her complaint must first consult an Equal Employment Opportunity Counselor within 30 calendar days of the alleged discriminatory action.

On Fair Play

"Put yourself in his place!"

—Charles Reade

THESE WORDS, the title of one of Charles Reade's novels, have remained in my memory for more than half a century. The story tells of an English village at a time when workers believed that the introduction of labor-saving machines meant taking bread out of the mouths of their wives and children.

Living in this community was Dr. Amboyne. He was a wise physician who tended alike to mill owner and mill worker, to the mind as well as to the body. And whenever he found one man denouncing another, he always asked the same question: "What would you do if you were in his place?"

Dr. Amboyne's example has influenced me from youth to age. I have tried—with many lapses—to follow it in all association with my fellows. "Put Yourself in His Place," as practiced by the doctor, is, in effect, to live the Golden Rule.

It seems to me, as one who has lived a long time, that it was never more needed than now.

—Josephus Daniels

BLOODMOBILE IN THE DISTRICT OFFICE,

26 MAY 1978

A Red Cross Bloodmobile will be set up in Room 1040 of the District Office, Friday, 26 May 1978 from 8:30 am to 1:00 pm. All employees working in the District Office and Service Base are encouraged to donate blood. Employees who have previously donated blood will be sent a Pledge Card and asked to participate in the Program once again. Pledge Cards for new donors may be obtained in Room 957 or by calling Ext 2838.

ALMSA will have their Bloodmobile on Thursday, 25 May 1978 in Room 1040. Employees who find it more convenient to donate on the 25th should call Norma Kosta, Ext 2838 for an appointment.

"SERVICE STATION GYPS: When you travel by car, keep a sharp eye out for gyp operators in unfamiliar service stations. One state's consumer affairs department, aware of flagrant abuses, puts together this list of tricks used by the gypts to con unwary motorists into needless and usually exorbitantly priced repairs. In one, a station attendant, carrying a small concealed plastic bottle of oil in his hand, squirts some on shock absorbers, then claims the parts are "bleeding," require replacement. In another, using the same kind of bottle, an attendant squirts a mix of acid and barbecue sauce into alternator or transmission which then starts smoking alarmingly.

Other tricks include using a rag-concealed pick to puncture a tire; making the water pump leak by hitting it with a small wrench; dropping bits of antacid tablets into the battery which cause the cups to blow off within minutes after they're put back on. Another gyp maneuver: putting food coloring-tinted water instead of antifreeze into the cooling system. Advises the American Automobile Association: it's best to make certain your car is in good shape before starting a trip—and at unfamiliar service stations, get out and watch everything the attendant does. (Service station gypts: The list was compiled by the Georgia Office of Consumer Affairs based on tricks used along Interstate 75 in that state)."

★★★ to keep America working!

"EVERYONE WANTS TO FEEL LIKE SOMEONE"

It is a fact of life that every person likes to feel that what he/she is doing is important in one way or another.

It goes for everyone - regardless of the job or so-called station in life.

It goes for the people who wash windows, just as it goes for the people who run elevators or operate buses.

It goes for executives.

It goes for the heads of departments.

It goes for the presidents of corporations.

It goes for you.

It goes for me.

Nobody, but nobody, wants to have himself or his job looked down upon or run down.

Nobody wants to be made to feel like a fool or to look like a fool, particularly in the presence of other people.

So, we come to a very simple but very important principle of human relations and human communication which goes like this:

"EVERYBODY WANTS TO FEEL LIKE SOMEBODY"

And every time we violate this principle, we create a breakdown in communications, and we set up a roadblock as real and as effective as any that could be erected by wood or stone or steel.

The young lad who won an essay contest on "Why I Like My Teacher Best" said it well when he wrote very simply, "She makes me feel like somebody."

-From Sense and Nonsense
Alfred Fleishman

FOR THE DISTRICT ENGINEER:

GEORGE A. ANDERSON
Personnel Officer

UNOFFICIAL

IN MEMORIAM

WALTER T. THURSBY, a former SLED employee, passed away 19 Apr 78. He formerly worked in Material Section, Service Base. He retired in 1953.

ERIC A. LAMY, former employee of SLED, passed away the first of Apr 78. He formerly worked as the Records Management Officer in OAS.

MISS MARY WELKEY, who had worked as secretary to Chief, Real Estate Division for many years, passed away Monday, 15 May 78. Mary had started her federal service in 1948, and had worked in the Real Estate Division since 1952. She retired on 12 Jun 72.

"ANDY" ANDERSON, died Saturday, 13 May 78. For the last several years he was Manager, Meramec Park Lake, Real Estate office.
