

# U. S. Army Corps of Engineers Mandatory Center of Expertise for the Curation and Management of Archaeological Collections (MCX CMAC)

## Regional Cultural Resources Management (CRM)

### Background

MCX CMAC has the capability and personnel to provide technical assistance, archaeological services, and guidance to facilitate and ensure compliance with federal regulatory mandates pertaining to the inventory, assessment, protection, and preservation of archaeological resources as defined by laws and regulations (e.g., ARPA, NHPA). MCX CMAC staff are broadly qualified and experienced in performing a wide range of field, laboratory, and office-based archaeological functions. Major customers in the Midwest and South have included USACE's Kansas City, Memphis, New Orleans, and Omaha Districts.

### Services Offered

- Archaeological Resources Protection Act (ARPA; 16 U.S.C. 470bb and 32 CFR Part 229), Section 106 and Section 110 of the National Historic Preservation Act (NHPA) guidance and compliance
- All aspects of archaeological investigation, including background research, field survey, archaeological testing, archaeological mitigation, and ArcGIS services
- Efficient and proficient management of archaeological field projects, ranging from small to large-scale mitigation

---

MCX CMAC is located at the St. Louis District of the U. S. Army Corps of Engineers.
