

FUSRAP St. Louis Site Remediation Task Force
Alternate Sites Workgroup
January 17, 1995

A meeting of the Alternate Sites Workgroup was held on January 17, 1995 at 9:30 AM at the Hazelwood Interim Storage Site trailer. In attendance at the meeting were:

Jim Dwyer
Eileen O'Connor
Dan Wall
Kay Drey
Glenn Carlson
Jan Titus
Jack Fraenhoffer
Sally Price
Dan Tschirgi

The discussion covered the following topics:

-Interstate shipments of spent nuclear fuel will bring significant interest and may affect the future acceptability of transport of the FUSRAP material across State boundaries.

-The solution for the FUSRAP St. Louis Site may be multi-faceted involving more than one approach and more than one site.

-Jim Dwyer will request of Dave Adler information on FUSRAP sites in other States.

-There may be three levels of activity initiated: 1) interim cleanups, 2) start of the "Envirocare option," and 3) pursuit of other permanent disposal options.

-The short term/small volume actions that have a "high payoff" need to be identified. That task was not the goal of the alternate sites workgroup.

-The conclusion reached at the last meeting regarding Envirocare as the "base option" was premature. The workgroup needs to go through the process of evaluating alternative sites against criteria we establish.

-The attached list of criteria (established first) and sites were identified that the workgroup will attempt to evaluate.

1/17/94 Alternate Sites Workgroup

	Impact on Public Health/Environment -Pop. Density -Transportation -Air/Water/Land/ Living Creatures -Worker Impact	Timing (How Long?) -Approval Process -Construction	Cost -Implementation (Construction) -Disposal -Maintenance and Monitoring -Transportation	Community Response -Political -Economic Impact	Site Suitability -Capacity -Facility Geology/Hydro. -Accessibility -Availability
