St. Louis Site Remediation Task Force Meets

ST. LOUIS -- A special meeting of the St. Louis Site Remediation Task Force is scheduled for 7:30 a.m. Tuesday, July 23, 1996 at the Hazelwood Civic Center East, 8969 Dunn Road, Hazelwood, Missouri, 63042. The meeting is open to the public.

An agenda for the July 23 meeting is attached.

The Task Force is a citizens advisory group formed in 1994 at the request of the U.S. Department of Energy (DOE) to develop a public consensus about cleanup solutions and future courses of action at the St. Louis Site, where four groups of properties are contaminated with radioactivity. The Task Force is comprised of participants representing municipalities, utilities, property owners, regulatory agencies, civic and environmental groups, congressional delegations, and other concerned citizens. It is expected to deliver its recommendations for long-term cleanup and disposal of wastes to DOE by September.

For more information, contact the Task Force support staff at (314) 524-4083.
