

St. Louis Site Remediation Task Force

To: Interested Parties
From: Sally Price, Chair
Date: July 17, 1996
Subject: Special Meeting of the St. Louis Site Remediation Task Force

A special meeting of the St. Louis Site Remediation Task Force is scheduled for 7:30 a.m. on Tuesday, July 23, 1996 at the Hazelwood Civic Center East, 8969 Dunn Road. The meeting is open to the public, and I have enclosed an agenda and a map indicating the meeting location for your information.

As you may be aware, the St. Louis Site Remediation Task Force was formed in late 1994 to develop a public consensus about cleanup solutions and future courses of action at four groups of properties in the St. Louis area that are contaminated with low-level radioactive waste. The properties are:

- St. Louis Downtown Site (SLDS)
- St. Louis Airport Site (SLAPS)
- Several nearby, or "vicinity" properties associated with SLAPS
- Latty Avenue Properties, which include the Hazelwood Interim Storage Site (HISS)

Task Force members have been evaluating cleanup and disposal options for more than a year in order to develop consensus-based recommendations that represent the most feasible and cost-effective disposal alternatives that are protective of human health and the environment. We plan to issue our final report and recommendations to the U.S. Department of Energy in September.

If you have any questions, please call the Task Force support staff at (314) 524-4083.
