SUBJECT: Technical Basis for St. Louis North County  
Vicinity Properties

Mr. Albert Johnson

U.S. Department of Energy

Germantown, MD 20874-1290

Dear Mr. Johnson:

The St. Louis District, U.S. Army Corps of Engineers, is currently reviewing existing information pursuant to issuing a Feasibility Study and Proposed Plan for the St. Louis North County Site. Limited information has been located regarding the technical basis used by the Department of Energy for including and/or excluding specific vicinity properties from the St. Louis North County Site. A better understanding of the site designation process and methodology is essential to support the scope of the St. Louis North County Site.

Please provide a bibliographical listing of documents within the DOE's FUSRAP document library that directly relate to the investigation, evaluation, and either the designation or elimination of properties from the FUSRAP vicinity properties list in the St. Louis area. Please include all available information collected for DOE by their contractors (such as ORNL, ORISE, Bechtel) including any correspondence with individual property owners. Further, the St. Louis District request that the DOE FUSRAP records custodian (Charles Young, Booz Allen & Hamilton) be made available to answer questions and provide copies of documents from this bibliographical listing upon request, to the USACE.

Should you require any additional information, please contact either Mr. Dennis Chambers at (314) 260-3917, or Mr. Lou Dell'Orco at (314) 260-3932.

Sincerely,

A handwritten signature in cursive script, reading "Sharon R. Cotner". The signature is written in dark ink and is positioned above the printed name and title.
