RE: FUSRAP Record of Decision Schedules

Dear Ms. Cotner:

I am writing to inquire the status of the U. S. Army Corps of Engineers' (USACE) scope and schedule for the North County-Record of Decision (ROD). Your office convened a meeting on August 13, 1998, to discuss this topic. The Missouri Department of Natural Resources (MDNR) provided comments to the schedule and later provided written confirmation that the schedule appeared to be reasonable. Comments also noted that the scope of the ROD should include all of Coldwater Creek and not limit the Remedial Design to only the stretch of creek between the St. Louis Airport Site (SLAPS) and I-270. USACE is continuing to move forward with the schedule, however, the milestone dates as called for in the Federal Facility Agreement (FFA) have not been established.

Similarly, the ROD schedule to address the inaccessible soils for the St. Louis Downtown Site (SLDS) needs to be established. Since the ROD for the accessible soils and addressing of impacted groundwater was finalized on August 27, 1998, the inaccessible soils operable unit timetable, as called for in the FFA, is needed.

I want to thank you in advance for your earliest attention to this matter. May I have your response by January 25, 1999? Please feel free to contact me at (573) 751-6838 if you have any questions or need clarification.

Sincerely,

HAZARDOUS WASTE PROGRAM
