

Bridgeton, MO,  
May 25, 2003.

Project Manager, Ms. Sharon Cotner,  
U. S. Corps of Engineers  
8945 Latty Avenue  
St Louis MO 63134.

Dear Ms. Cotner,

I hope to attend the upcoming meeting on the Proposed Plan and Feasibility Study for the St. Louis North County Radioactive Site.

I believe the time is due to get the remaining radioactive wastes removed from all the sites in the North St. Louis County: From the West Lake Landfill in Bridgeton, from the Coldwater Creek sediments and shores and from under bridges, roads and buildings elsewhere in the North County.

I served on the Bridgeton City Council from 1972 to 1975 and as mayor from 1975 to 1979, but during this time I was unaware that in 1973 radioactive waste materials had been moved from Hazelwood and deposited in the West Lake Landfill. I understand that these materials were original made by Mallinckrott and moved from St. Louis to an Airport site, then to Latty Avenue in Hazelwood, and finally to Bridgeton in 1973. This should never have been done, and I am looking forward to seeing it all soon removed from our city.

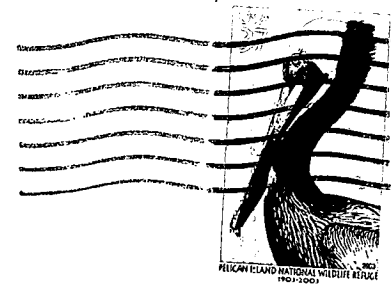

Although, I believe that the West Lake Landfill presently is under the EPA jurisdiction, I would urge the Corps of Engineers to take over the responsibility of the radioactive waste removal from this site; particularly, because West Lake Landfill is located in the Missouri River Floodplain and considering also that these materials have a very long half life.

Sincerely,

Alf J. Stole , PE
