**Subject:** Re: Removal of Remainder of St.Louis North County Radioactive Waste

Ms. Mattingly,

Please be advised that I support the removal of the remainder of the North County radioactive wastes from the following areas: under bridges, roads, and buildings; from the groundwater and from Coldwater Creek sediments and shores; and from West Lake Landfill next to Earth City. I urge that you continue funding the process of cleanup until it is completed and the remaining wastes have been removed.

To rely on "institutional control" like deed and zoning restrictions is not solving the problem. St.Louis has had to bear the burden of this unremediated waste long enough and there should be no further delay in its removal. I expect the U.S. Army Corps of Engineers to continue this project and oversee it through to its completion, to provide a healthy environment for all residents in this and surrounding areas, promoting the well-being of these communities now and in the future.

Thank you for providing this opportunity for public comment.

Sincerely,

G. Clare Laune
