MEMORANDUM

TO: Oversight Committee Members
Other Interested Parties

FROM: Ric Cavanagh, Chair

RE: DOE Stewardship Meeting

As has been discussed at our recent meetings, the Department Of Energy will ultimately assume responsibility for long range stewardship of the St. Louis FUSRAP sites when remediation is finally completed. While such action may still be several years away, DOE staff from Grand Junction, Colorado, who will ultimately draft the Stewardship Plan, are interested in at least familiarizing themselves with the St. Louis FUSRAP sites.

Therefore, the Committee and USACE project staff will meet with DOE representatives on Thursday, January 27, at 1:30 pm, at the Latty Ave. trailers. This is not really a formal meeting, per se. Rather, it will be a chance for DOE staff to visit the FUSRAP sites and to begin some dialogue with the Committee about what our long term goals are for the sites. I would anticipate that the meeting would last approximately 1.5 hours.

Other interested parties are welcome to attend. However, as indicated, the tone of the gathering will be more of a conversation than a formal meeting.

The timing of the meeting has been dictated by the DOE staffs' schedule which is quite full. I hope as many Committee members as possible can attend.
