## REGION VII 726 MINNESOTA AVENUE KANSAS CITY, KANSAS 66101

DEC 1 7 1998

Ms. Sharon Cotner, Project Manager
Formerly Utilized Sites Remedial Action Project
Department of the Army
St. Louis District, Corps of Engineers
9170 Latty Avenue
Berkeley, Missouri 63134

Dear Ms. Cotner:

Re: FUSRAP St. Louis Sites Community Relations Plan Revision 1, November 1998

Thank you for providing us an opportunity to look at the subject document. Based on a brief review, it appears to be a thorough and useful plan; however, we did make note of the following:

General comment - The plan incorporates the Madison Site. This is not inappropriate; however, the plan does not make clear that this site is located in a different EPA region, has different site contacts within EPA and the state, is not a subject of our Federal Facility Agreement, etc.

Section 1.2, pg. 1-1 - Actually, the Superfund law is considered to be CERCLA, as amended by SARA. Also, reference to CERCLA is commonly understood to mean CERCLA, as amended by SARA.

Section 2.1, pg. 2-1 - The operable unit breakdown described here is not consistent with our understanding, and probably reflects a misuse of the term "operable unit". The designation of an "operable unit" has a specific administrative meaning and function, each requiring development of a separate CERCLA remedial action decision. Although the strategy may evolve over time, we have so far identified two operable units relative to

the Missouri sites: OU 1 - the North County sites, and OU 2 - the St. Louis Downtown Site (SLDS). In future, if convenient to do so, we may identify other operable units, e.g., Coldwater Creek, or groundwater.

Figure 2.1, pg. 2-2 - An Engineering Evaluation/Cost Analysis (EE/CA) is actually part of the removal action decision process and is not a prerequisite of the RI/FS remedial action process as indicated in this figure.

Please call me at (913) 551-7710, if you have any questions.

Sincerely

niel R. Wall
