RE: North County ROD (Record of Decision)

Ms. Sharon Cotner,

As Mayor for the City of Hazelwood, Missouri I would like to express my firm conviction that all of the contamination related to the MED/AEC be removed from St. Louis County. By implementing a complete cleanup now, any future oversight of the affected areas will be eliminated. In addition, future use of the properties will not need to be regulated by environmental controls. This will help encourage the redevelopment of these areas, which will help the associated communities generate revenues.

I understand that these issues can be complex, however no solution other than the complete remediation of the affected sites can fully alleviate potential health risks to children and adult citizens of Hazelwood.

A comprehensive cleanup strategy is the only appropriate course of action to protect the public health of our residents and to provide for the possibility future redevelopment of affected areas.

If you require any additional information, please do not hesitate to contact me at trcarr@hazelwoodmo.org or (314) 839-3700.

Sincerely,

T.R. Carr
