

## The U.S. Department of Energy invites interested citizens to a public meeting for the Engineering Evaluation/Cost Analysis (EE/CA) for the removal of contamination at the St. Louis Airport Site (SLAPS)

The U.S. Department of Energy (DOE) will hold a public meeting on Wednesday, August 13, 1997 to receive public comment on an Engineering Evaluation/Cost Analysis (EE/CA) for the removal of radioactive material at the St. Louis Airport Site (SLAPS) in St. Louis, Missouri. This action grew out of interactions DOE has had with stakeholders over the past several months to develop consensus about cleanup solutions and future actions for accelerating cleanup at the St. Louis Site. The proposed interim action is designed to achieve three principle goals:

- to accelerate work at the St. Louis Airport Site;
- to provide a clean buffer zone adjacent to Coldwater Creek; and
- to protect Coldwater Creek by further controlling surface water migration of contamination to the creek.

The public meeting is an opportunity for residents living in the community, as well as other interested parties, to participate and comment on proposed and ongoing activities. A poster board session pertaining to all site activities will be held from 7:00 p.m. - 8:00 p.m. The formal presentation will begin promptly at 8:00 p.m. followed by an opportunity to make statements or ask questions. The meeting will be held at:

Hazelwood Civic Center - East  
8969 Dunn Road  
Hazelwood, MO 63042  
7:00 p.m. - 9:30 p.m.

Anyone wishing to have a written response must submit question(s) in writing during the meeting or during the 30 day comment period, now through August 28, 1997.

For more information, contact the DOE St. Louis Site Office at (314) 524-4083.
