U.S. Army Corps of Engineers  
St. Louis District Office  
9170 Latty Avenue  
Berkeley, MO 63134

Attention: S. R. Cotner, Program Manager  
St. Louis District - FUSRAP

Subject: Location of Chain of Custody Documentation From SLDS Characterization Activities

Dear Ms. Cotner:

Bechtel has conducted several sampling campaigns over the last few years to better define the extent of contamination at the St. Louis Downtown Site (SLDS). As a result of our characterization efforts, Chain of Custody documentation was generated to ensure the proper tracking of samples taken from the site to the laboratory for analysis. This documentation is archived in our Project Document Control Center (PDCC) in Oak Ridge, Tennessee and can be easily accessed from microfilm. Chain of Custody documentation from sampling events conducted by Bechtel since late 1987 to present is contained in PDCC.

Please contact me at 524-7346 if you have questions regarding the storage or retrieval of this documentation.

Sincerely,

W. F. Johnson  
Project Manager - FUSRAP
