Caveats: NONE

FYI
IDPH is "blessing" the FS/PP. (Will send you EPA's blessing shortly. I am checking with DOE.)

We are moving forward with the public review component.
Am I correct in assuming you folks have already begun working on ROD?

Sharon

The Iowa Department of Public Health, Bureau of Radiological Health concurs that the draft final documents may now be considered "final".

Regards,
Melanie

Hi,

EPA in the attached correspondence proposes that we accelerate the schedule for issuance of the draft final FS and PP as FINAL documents.

In accordance with the Federal Facility Agreement (FFA), the draft final documents become "final" 30 days after they have been issued (assuming no FFA party disputes the document.) As other FFA signatory parties for the Iowa AAP site, I need your concurrence with this accelerated schedule and agreement that the draft final documents may now be considered "final".

Please reply with your position on this.

Thank you,

Sharon Cotner

Sharon:

I am sending the letter on the subject item. This email serves the formal submittal. The hard copy is being sent out today for your records.

EPA review period was to end on 5/5/2011. Instead, we are ending the EPA review period today (4/12/2011) by sending the attached letter early to enable availability of additional review days later on.

For any doubts or clarification, please feel free to contact me.
