Other Issues

- Funding

- FUSRAP funds (\$140 million annual allocation at this time) are allocated to the sites by HQUSACE
- The IAAAP is not in the FY03 FUSRAP budget
 - FY04 will be the first opportunity to budget for the IAAAP
 - The FY03 budget was developed in FY01, prior to inclusion of the IAAAP in FUSRAP

- Radiological Flyover

- Facilitated development of the Scope of Work with site stakeholders
 - USEPA, IDPH, IAAAP, USACE and OSC
- Currently facilitating development of the flyover workplan with the stakeholders
- Ensuring that the data obtained is useable for FUSRAP

Other Issues

- Federal Facilities Agreement

- The USACE position is that the FFA does not apply to FUSRAP. USACE will pursue a new agreement with the USEPA
 - This position was coordinated within the Army (USACE, OSC & AMC)

- Correspondence

- Working on coordinated responses to three letters
 - July 26, 2002 from the U.S. EPA to Col Williams and Col Dennis-Lowman which asks how the FFA will be integrated into FUSRAP
 - Interim response sent to USEPA 9 SEP, meeting held 19 SEP
 - August 5, 2002 from the Office of the Governor to Mr. Fatz and Mr. Smith which asks about the applicability of the existing FFA to the FUSRAP program and asks the ER,A program to outline the next steps of the flyover and confirm that funding is available.
 - Response working at HQ
 - August 29, 2002 from the Office of the Governor to Mr. Newsome and Col Williams which asked questions about the responsibility for preparation of a workplan in support of the flyover, detection levels and the relationship between FUSRAP and the FFA
