**BANKLINE CONSTRUCTION ACTIVITY
Ted Shanks Conservation Area
Upper Mississippi River mile 287.5**

1. A pump station is being constructed at the Ted Shanks Conservation Area, which includes a temporary sheet pile cofferdam, located along the right descending bank at mile 287.5 Upper Mississippi River. The cofferdam sheet pile extends to the shoreline and will be in place, for approximately one year, until completion of the construction project.
2. Mariners are requested to not hold up along the right descending bank in the vicinity of mile 287.5 Upper Mississippi River.
3. The Inland Electronic Navigation Chart will be updated to show this new structure. A general map is attached showing the approximate location.

FOR THE DISTRICT ENGINEER:
