CHANNEL MAINTENANCE DREDGING - UPDATE 5 NOV 2020
USACE Dredge Potter
Upper Mississippi River mile 0 - 300

1. Commencing on 7 July 2020 and continuing until further notice, the US Army Corps of Engineers Dredge Potter will perform channel maintenance dredging at various locations on the Upper Mississippi River from mile 0 to 300.0.
2. The Dredge Potter will complete work at the St. Louis Service Base on Friday 6 November 2020. The anticipated schedule is as follows:
 1. Grand Tower, Mile 80 UMR, 7-10 November 2020.
 2. Scudders, Mile 15.4 UMR, 11-18 November 2020.
 3. Price Landing, Mile 28.6 UMR, 19-22 Nov 2020.
 4. Uncle Joe Light, Mile 41 UMR, 23-25 Nov 2020.
 5. Grand Chain Light, Mile 42.3 UMR, 26-30 Nov 2020.
 6. Marquette Chute, Mile 46.9 UMR, 1-5 Dec 2020.
3. The Dredge Potter and its attendant plant, to include tender boats, small boats, barges and pipeline, etc., work 24 hours a day, 7 days a week. When dredging, removed material is pumped through a pontoon pipeline or self-floating pipeline, which may be crossing the channel, and is placed outside of the navigation channel. Mariners should be on the lookout for tender boats, barges, small survey boats, and pipeline when transiting the dredge area.
4. The Dredge Potter may be contacted on VHF-FM radio channels 13 and 16. Mariners are urged to transit at their slowest safe speed to minimize wake and proceed with caution after passing arrangements have been made with the Dredge Potter.
5. All navigation interest should be alert for, and abide by, any special instructions that may be issued by the Lockmaster.

FOR THE DISTRICT ENGINEER:
