**IENC UPDATE - SAILING LINE  
Fines Bluff Light, mile 163  
Upper Mississippi River**

1. Recent survey data has identified a need to adjust the sailing line from mile 164.0 to 162.0 Upper Mississippi River. The revised sailing line follows the best available water depths through these limits. This update has been coordinated with RIAC, who has concurred with the change.
2. The revised sailing line has been submitted and will be included in the IENC chart download available on 16 December 2020. IENC users should update their charts accordingly.
3. A drawing of the revised sailing line and a Google Earth kmz file are attached for reference.
4. This NTNI is for information purposes and will be posted to the NTNI website for the next 60 days.

**FOR THE DISTRICT ENGINEER:**
