

# Navigation Channel Condition Status Report - 1 November 2012

**Dredge Status**

**Dredge Potter**  
- Dredging at RM 73.3

**Dredge America**  
- Dredging at Lower Canal Entrance/ L&D27

**Channel Marker Status**

**Be aware that there may be other buoys off station/missing than the ones mentioned in this report. Mariners should use caution.**

**The Pathfinder is undergoing maintenance.**

**Additional Risks / Concerns**

**All mariners are advised that the Upper Mississippi River Waterways Action Plan Zone 28 (RM 109.9 to RM 185.0) is currently in the extreme low water action phase. Due to low river levels and shifting channels, there is an increase for potential groundings. Transit at a slow speed near fleeting areas. Heavy barges should be placed in the middle of tows. Transit with extreme caution. For additional info, contact the Coast Guard Sector UMR Command Center at 314-269-2332.**

**Stages on the Illinois are near their minimum. Please use considerable caution when navigating on the Illinois River.**

**It is recommended that pilots be mindful of draft, as the river is quite low.**

**As the river falls, rock pinnacles at Thebes increasingly become navigation hazards. It is recommended that in the vicinity of the Thebes bridge, tows stay off the green buoy line. For a view of the rock at Thebes, [Click here](#)**
