

Established in 2020, the Lake Shelbyville Water Trail - Kaskaskia Branch travels downstream from Denham Pit Primitive Boat Ramp to Forrest W. Bo Wood Boat Ramp. In total, it is just under a 12 mile trip that takes around 4 hours to complete (at normal lake level.) This versatile trail offers distances for all paddling experience levels with several put in/take out points along the route. Looking to explore quiet coves? Check out the list of recommended locations on the flip side of this map.
