If an activity verified under a 2017 NWP no longer qualifies for NWP authorization under one of the 40 reissued 2021 NWPs, the project proponent would have 12 months to complete the authorized activity as long as that activity is under construction or under contract to commence construction on or before February 24, 2022 [33 CFR 330.6(b)].

4. **REGIONAL CONDITIONS:** The Mississippi Valley Division (MVD) has finalized the regional conditions for these 41 NWPs in Illinois. Regional conditions help ensure protection of high value waters within the state of Illinois. The Regional Conditions can be found below or accessed at the St. Louis District Regulatory web page:
